Centralised registry of lawyers, law firms soon

BHAVINI MISHRA
New Delhi, 19 June

The Bar Council of India (BCI) is in the process of preparing a centralised registry of all law firms and lawyers to establish a democratically elected, pan-India organisation of Indian law firms, the lawyers' governing body said.

"This organisation will ensure that voices from every region and practice level are included in the policy dialogues," BCI said.

The Council was responding to the Society of Indian Law Firms (SILF)'s opposition to the entry of foreign lawyers and law firms into the country.

In its press release, the BCI said SILF did not represent the broad spectrum of Indian law firms. "It functions primarily as a closed group dominated by a few large, well-established firms. Its stance and actions do not reflect the concerns or aspirations of more than 90 per cent of India's smaller or emerging law firms," the BCI said in a press note.

The Council, which is the apex lawyers' representative and governance body, had on

June 14 constituted a high-level committee chaired by senior advocate Cyril Shroff, the managing partner of law firm Cyril Amarchand Mangaldas, to examine concerns around the May 2025 notification on the entry and operation of foreign lawyers and law firms in India.

Shortly after this, on June 17, SILF formed a committee of lawyers, headed by Shardul Shroff to suggest changes to the

recently notified BCI rules allowing foreign lawyers and law firms to work in India.

The BCI said the feedback it had received indicated that SILF has historically acted to preserve its members' commercial interests at the expense of young, deserving Indian lawyers and new legal practices striving to grow in an increasingly competitive and global legal arena. The lawyers' governing body also alleged that law firms comprising SILF had maintained close affiliations with major foreign legal firms, enabling them to create a "parallel legal services economy, wherein foreign legal work is funnelled through select Indian firms". Corporate, transactional, and arbitration-related legal services in India have been monopolised by a small group of law firms, which has stifled the growth of smaller law firms and talented young lawyers, the BCI said.

"The BCI, through these regulations, seeks to democratise access to cross-border legal work, and dismantle the structural monopolies within the Indian legal services sector," the release said.

15 UK campuses could dot Indian cities in 3 yrs

SANKET KOUL
New Delhi, 19 June

Nearly 15 UK-based universities may be looking to set up campuses in India over the next three years, with Delhi-National Capital Region, Mumbai, Bengaluru, and Ahmedabad emerging as popular destinations, Rittika Chanda Parruck, director of education in India at the British Council, told *Business Standard* in a video interview.

Rittika Chanda Parruck, director of education in India at the British Council, said the interested institutions are all public universities

This comes as several British universities — such as the Universities of Southampton, Liverpool, Coventry, York, and Aberdeen — have either announced plans to set up campuses in India or have received letters of intent from the education ministry.

The development follows the University Grants Commission's (UGC's) 2023 notification of rules facilitating the entry of foreign higher education institutions into India as part of the National Education Policy (NEP) 2020 reforms.

Under these regulations, foreign institutions seeking to establish campuses in India must rank within the top 500 globally — either overall or in specific subject areas — and demonstrate outstanding expertise in their fields, subject to UGC approval.

Parruck added that while the number may rise in future, making firm predictions remains difficult for several reasons, as such processes take time to develop. "As this process unfolds, many universities are observing the first movers in this space. We believe that there will be greater positive traction as their confidence grows," she said.

On the question of what courses British universities might offer on their Indian campuses, Parruck said that while science, technology, engineering, and mathematics (STEM) remain popular, other courses

Co-ops take the wheel: Sahakar Taxi app set to rival Uber, Ola

SANJEEB MUKHERJEE
New Delhi, 19 June

India's first app-based taxi service under the cooperative model, aimed at taking on Uber and Ola, called the Sahakar Taxi Cooperative, has been registered under the Multi-State Co-Operative Societies Act with an authorised share capital of ₹300 crore, senior officials said.

The taxi service, which is initially expected to start operations in Delhi, Gujarat, and Maharashtra around December, will gradually expand its footprint across the country.

A few months ago, Union Minister of Cooperation Amit Shah announced the intention to launch a taxi ride-hailing service in the cooperative sector called Sahakar Taxi. The platform would also allow registration of two-wheelers, rickshaws, taxis, and four-wheelers.

The Sahakar Taxi Cooperative has been promoted by eight major cooperatives: the National Cooperative Development Corporation (NCDC), Anand Milk Union, National Agricultural Cooperative Marketing Federation of India (Nafed), National Bank for Agriculture and Rural Development (Nabard), Indian Farmers Ferti-

liser Cooperative (IFFCO), Krishak Bharati Cooperative (KRIBHCO), National Dairy Development Board (NDDB), and National Co-operative Exports.

Each promoter has already committed ₹10 crore, amounting to around ₹80 crore in initial capital for the taxi cooperative.

Around 400 drivers are expected to be onboarded initially.

Each will be allowed to purchase five shares of ₹100 each to become members of the cooperative six months after joining.

"Unlike Uber and Ola, this taxi service will operate on three major principles: first, ensuring fair pricing for both drivers and passengers (concepts like surge pricing will not be permitted); second, redistribution of profits to drivers; and third, provision of social security for drivers," a senior official directly involved in the project said.

He added that the cooperative taxi service will not operate for profit, and all earnings will be redistributed among the drivers, with a portion allocated for their social security benefits.

"We have already initiated discussions with technology partners to develop a ride-sharing application for the service," the official explained.

An interim board has been formed to oversee initial operations. Rohit Gupta, deputy managing director of NCDC, is serving as chairman of the board. Other key members include V Sridhar (NDDB), Tarun Handa (Nafed), Naveen Kumar (Nabard), Santosh Shukla (IFFCO), and L P Godwin (KRIBHCO), among others.

OnePlus launches
Bullets Wireless Z3

OnePlus has launched Bullets Wireless Z3 neckband in India. Priced at ₹1,699, the audio device is equipped with 12.4mm dynamic bass drivers and supports features such as 3D Spatial Audio and AI-based call noise cancellation. The Bullets Wireless Z3 also comes with an IP55 rating.

Facebook gets
password-less
sign in feature

Meta is adding support for passkey authentication on Facebook for both iOS and Android users. This new method lets users log in without passwords or SMS-based one-time codes, instead relying on biometric verification like fingerprints, face recognition, or device PINs.

Apple releases
iOS 18.6 beta

Apple has released the first developer and public beta versions of iOS 18.6, focusing on performance enhancements and bug fixes. This update is expected to be the last significant release under the iOS 18 series before the shift to iOS 26 begins later in the year.

QS World Rankings: Record 54 Indian institutions on the list

India's higher education institutes scaled up global rankings with a record 54 universities being pegged as the global best, according to QS World University Rankings 2026. It is up from 46 in 2025, making India's representation the fourth-largest after the US, UK, and China. The number will rise further, said education minister Dharmendra Pradhan on the back of India's National Education Policy's thrust on research, innovation, and internationalisation.

IPL 2025 scored record viewership with 840 bn minutes' watch time: JioStar

The 18th season of the Indian Premier League (IPL) clocked a billion viewers across television (TV) and digital platforms, garnering a record viewership of 840 billion minutes of total watch time.

The final match between Royal Challengers Bengaluru (RCB) and Punjab Kings (PBKS) recorded 31.7 billion minutes of watch time across JioStar's platforms — Star Sports and JioHotstar — making it the most-watched match in the history of T20 cricket, according to a press release by JioStar.

These numbers show that the one-week suspension of the IPL due to the sensitive geopolitical situation between India and Pakistan hardly affected the league's viewership, it said.

"Across linear and digital platforms, the final (match) set new benchmarks in the history of T20 Cricket. On TV, powered by Star Sports, it registered the highest-ever reach for a T20 match at 169 million viewers and watch time at 15 billion minutes. On JioHotstar, the match rewrote digital history, emerging as the biggest T20 match ever with 892 million video views, 55 million peak concurrency, and 16,74 billion minutes of watch time," the release stated.

Indian money in Swiss banks more than trebled to ₹37,600 cr in 2024

AGENCIES
19 June

Indian money parked in Swiss banks more than trebled in 2024 to 3.5 billion Swiss francs (nearly ₹37,600 crore) on the back of a huge jump in funds held through local branches and other financial institutions. This is the highest since 2021, when the total Indian money in Swiss banks had hit a 14-year-high of CHF 3.83 billion.

These are official figures reported by banks to the Swiss National Bank (SNB) and do not indicate the quantum of the much-debated alleged black money held by Indians in Switzerland.

These figures also do not include the money that Indians, NRIs or others might have in Swiss banks in the names of third-country entities.

The total amount of CHF 3,545.54 million, described by the SNB as 'total liabilities' of Swiss banks or 'amounts due to' their Indian clients at the end of 2023, included CHF 346 million in customer deposits (up from CHF 310 million at 2023-end), CHF 3.02 billion held via other banks (up from CHF 427 million), CHF 41 million (up from CHF 10 million) through fiduciaries or trusts, and CHF 135 million as 'other amounts' due to customers in form of bonds, securities and various other financial instruments (down from CHF 293 million).

The total amount stood at a record high of nearly 6.5 billion Swiss francs in 2006, after
